**About Paraffin**

The handcrafted Bottler will be part of the exclusive mahogany interior of the 197-foot motoryacht Paraffin, which is highlighted by carved rope moldings and inlaid stars. Paraffin has many unique and outstanding features, like the 400-bottle "wine cellar" in the dining room and stowage for 450 wineglasses, a warming table in the galley that can keep upwards of 30 plates heated at a time and seat shakers in the sky lounge's sofas that, when coordinated with the film being shown on the huge plasma-screen TV in the room, provide the ultimate moviegoing experience.

**About Bottler**

Bottler BV, a Dutch company, manufactures the ultimate onboard accessory to hold wine or champagne in ultimate balance, even during rough seas. Designed by a famous Dutch interior yacht designer, who was also responsible for the artist impressions and interior workshop drawings of the Paraffin. He was inspired by Gerolamo Cardano, the Italian physician, philosopher and mathematician, developed in 1537 his 'cardanic suspension' (gimbals), in order to hold the compass stably against the ships movements. It concerns of three concentric rings, in which the compass hangs always perpendicularly.

The Bottler is bespoke, manufactured by hand with watch-making precision and can be custom designed to match any interior.
